### Introduction

We at Al Muftah Computers have stepped into the 10th successful year with more than 370 esteemed customers all over UAE.

FALCON Accounting is fully integrated business software designed to meet the business requirements of Enterprise, Medium and Small Business Companies. It is a sophisticated system which generates a variety of reports designed to give the Management an effective control on finance and business activities in particular.

### MAJOR HIGHLIGHTS

- Multi-Branch
- Multi-Location
- Multi-Unit
- Multi-User (Un-Limited)
- High Level of Security
- More than 300 reports (by different combinations)
- Efficient drilling facility ( eg.: Account Enquiry gives complete details of all the transactions for that account. In the Stock Enquiry you can drill through all details like invoice, purchase, movements etc. all in a single form)
- Programmable Function Keys
- Memorize transactions will provide easy data entry
- Work with Keyboard only or with Mouse.
- E-Mail Enabled
- User Friendly
- Shortcut Keys
- Context Sensitive Help
- Automatic Product Updates through Web
- Pure 32 Bit Application Environment
- Total Customizable Report Can convert to PDF and Excel
- Commercial Letter Gallery
- Additional Modules Connectivity (Optional)

## Why Do We Choose MySQL ?

The **MySQL®** database has become the world's most popular open source database because of its consistent fast performance, high reliability and ease of use. It's used in more than 10 million installations ranging from large corporations to specialized embedded applications on every continent in the world. (Yes, even Antarctica!)
